Manufactures

wöhner

ALLES MIT SPANNUNG

Wöhner produces modular electrical busbars systems, suitable for distributing between 100 amps and 2,500 amps of current, at up to 600 volts. Known in the industry as the 60mm-System, the busbar system is designed as a mounting platform for electrical automation and control components, including all major brands of molded case circuit breakers, IEC motor control components, fuses, hybrid power electronic controllers and a 24Vdc power supplies. The system saves up to 25% panel space and eliminates upwards of 40% of the labor involved in traditional panel wiring. Wöhner offers a free Quick CAD Quote (QCQ) Design Service to assist electrical engineers and panel builders in the conversion of traditional panel layouts to the 60mm-system.

Non-metallic NEMA 4X and cUL Listed Enclosure Stock and Custom

Vynckier's non-metallic NEMA 4X and cUL Listed enclosures are well suited for a wide variety of applications. If it is important that your electrical and electronic components be protected from environmental factors such as water, wind, dust and chemicals we have a solution for you. Our enclosures are available in a wide variety of sizes and configurations to accommodate nearly every situation.

IBOCO, is a wholly owned subsidiary of hagergroup. IBOCO represents total product integrity, from manufacturing to quality assurance to worldwide certifications (UL, CSA, CE, UNI EN ISO 9001:2000) and more. Rewriting industry standards and designs for integrated panel management systems.

IMO

IMO quality products have been in Canada since 2006: dedicated Canadian technical professionals; diversified range of control panel, solar, sensor and automation products; support, product training, knowledgeable sale support, hands-on approach to finding solutions; cost saving projects - drop and play to other brands - meeting and exceeding quality.

Semiconductor fuses ULTRA RAPID®, Medium and High Voltage fuses for protection of Transformers including submersibles, motors and medium and high voltage switchgear, compacts substations, cable feeders and high voltage, capacitors circuits.

Specialty fuses for Traction, Invertors, Choppers, Mining, Switchgear, AC/DC Drives,

Forklift, Navy, Communication, and many other applications. European square body, bottle and cylindrical fuses. Electronic fuses, and a wide range of DC rated fuses (6000 V DC +) for all types applications

Motor and pump protection, Ground-Fault Relays, Arc-Flash Detection, Resistance Grounding/ Monitoring. Industrial GFCI for Shock Protection, Voltage Monitoring Relays. Single Function Relays, Feeder Protection. Time-Delay Relays.

CAPPRODUCTS LTD

CapProducts LTD. is the leading manufacturer of top quality steel pipe. Our plant and distribution is located in Clinton ON. CAP produce industry standard sizes and custom sizes of Aluminum, Galvanized Steel, EMT and 304 Stainless Steel Elbows, Couplings and Nipples.

CADWELD exothermic welding system, welding molds, Eritech ground rods and accessories, Critec surge protection, ERICO lightning protection products and ground enhancement material.

Honeywell / Emon offers thermostats, relays, transformer contactors and energy monitoring products.

Ericson: manufactures, portable electric power distribution, cable reels, GFCI protection, wiring devices and temporary lighting solutions including hazardous location products that are code compliant.

GoConex wire-free switches

Add light switches anywhere, wire-free, in 3 minutes and choose what each switch does for you. GoConex controllers, installed in the electrical junction box, interrupt the flow of electricity. This eliminates the wire to the switch and frees every switch from the structure.

PMMI International the exclusive distributor of Steel Grip products in Canada. We work closely with Steel Grip to ensure that we offer products suited to the Canadian market. We're the Canadian master distributor for NOVAX insulated gloves for electricians. PMMI have a large selection National Safety Apparel and LAPCO.

ELECTROTEK LTD is a Calgary Manufacturer, specializing in Power Factor correction, harmonic and drive filters, both active and passive from 208V to 15kV.

EASYHEAT is the recognized leader in heat cable/matt systems for commercial and residential applications as well as self-regulating and MI cable for standard duty and classified locations. Nelson manufactures a board range of industrial heat tracing products including self-regulating, constant wattage and MI cables. In standard duty and C1D2.
